

METHODO LIGHT 35

Slim Curtain Wall System

Aluminium System

Curtain wall

A slim curtain wall system with a minimal visible line by Methodo. Methodo Light 35 combines aesthetics and high performance with an excellent price-to-quality ratio: a minimalist design with a visible line of only 35 mm, improving the entry of natural light – ideal for shop fronts and structures requiring a minimalist appearance, with certified air, water and wind performance and advanced static strength even in extreme weather.

FEATURES

Thermal transmittance		Uf from 1.2 to 2.2 W/m²K
Air permeability		Class AE
Watertightness		Class RE 1050
Wind resistance		Design ±1.6 kN/m²*
Visible Width		35 mm
Glazing		4 to 54 mm

*Wind load resistance: design ±1.6 kN/m², safety ±2.4 kN/m².

TPOLOGY POSSIBILITIES

All available typologies

Fixed
Flap vent
PAF
Two-plane mechanism

Visible Width

35 mm external

Mullion

Depth 50–200 mm, inertia up to 540 cm⁴

Transom

Depth 50–200 mm, inertia up to 451 cm⁴

Glazing

4 to 54 mm

Glazing Retention

Pressure plate

Applications:

Shop fronts and minimalist facades
Improved entry of natural light
